

Worship Arts Ministry

Throughout history, the arts have been an important part of worship. They provide us with meaningful ways to respond to God and his love. Worship needs these individual and corporate responses to remain alive and vital.

St. James arts programs are for all ages. Your dedication of time is rewarded with the joy of serving God and St. James in important and significant ways.

As we begin the new school year, make worship arts part of your involvement at St. James. You'll be glad you did!
